the strengths of our products

price

We are the direct manufacture, if you purchase products from us, you can get a quite reasonable price due to reducing the dealer links between the customer and manufacture!

quality

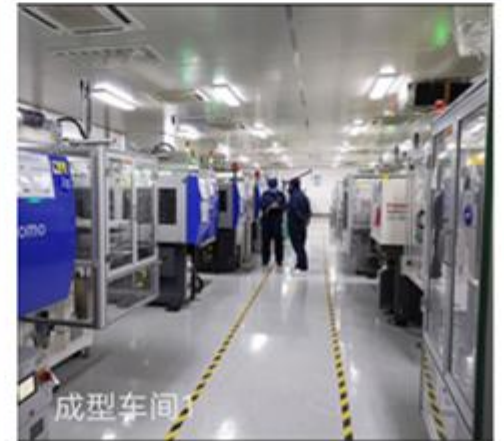

All of the products we sold to you are inspected rigidly by our QC, we can make sure that all the products sended from us to you are of high quality.

peformance

The materia of the products are metal and glass, they can endure high temperature, we can design various lens according to your requirments.

after-sales service

Our afer salers are online all round the clock, if you have any questions about the products you can call them 24 hours and they will give you quike and professional responses

Shanghai Boshi Optoelectronics

Founded in 2016, the company is located in Shanghai Jiading Industrial Park. Specializing in the production and sales of all kinds of surveillance camera lenses, optical lenses and lenses, with an annual output value of 70million yuan. The core team comes from domestic large-scale optical enterprises such as phoenix optics Co., Ltd., a leading enterprise in the industry. The company has

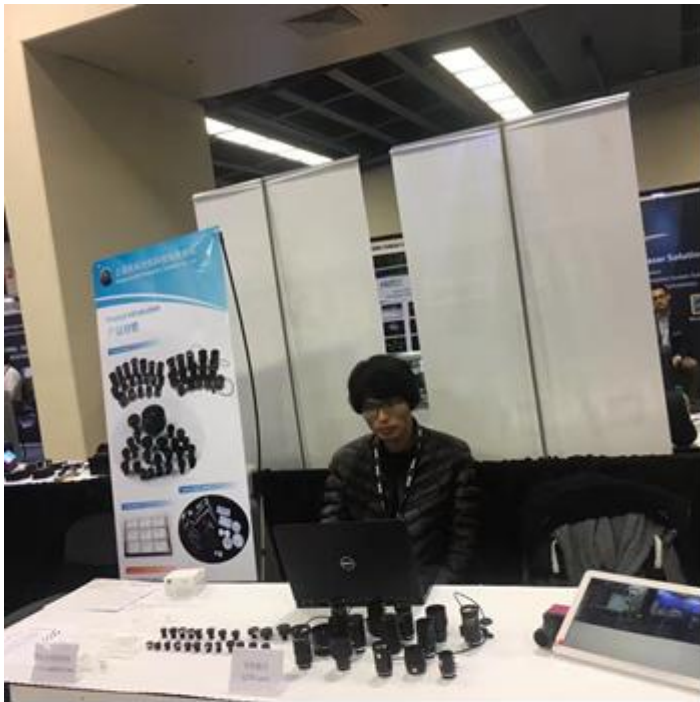

www.lensmanufacture.com

rich experience in production, processing and technology research and development, as well as good industry resources. At present, the company's core products are mainly concentrated in the field of video surveillance equipment and medical endoscopes. Among them, in the field of medical endoscope, the company has initially established a brand image and become a leading enterprise in the subdivided field. The company has a perfect quality system and has passed ISO9001:2008 certification and ISO14000 environmental system certification to ensure product quality. There are 10000 level dust-free purification workshops for injection molding, lens assembly, coating, etc, The injection molding workshop has Sumitomo and Fanuc optical injection molding machines, peripheral equipment and testing equipment imported from Japan. At present, the maximum production capacity of the company's production line is planned and designed to be 3.5 million lenses / month. With the continuous expansion of the company's business, a new factory has been built in the high tech Zone of Yushan County, Shangrao City, Jiangxi Province, raising the company's maximum production capacity to 10million lenses per month. As a professional optical enterprise, it can produce various types and models of lenses according to customer needs, including three main product systems:

- 1、 Endoscope lens, including medical endoscope lens, industrial endoscope lens, etc;
- 2、 Optical lens, including monitoring lens, vehicle lens, VR lens, TOF lens, etc;
- 3、 Plastic aspheric lens, including laser radar lens, coupling lens, collimating lens, HUD (Automotive head up display), led, etc;

Exhibition and market distribution
